

**Project“AT-2”**

**Test result report**

**Performed by Nikita Zenchik**

## Project“AT-2”

Operating system: Ubuntu (64-bit).

Web server: Apache.

Relational database management system: MySQL.

Runtime: PHP.

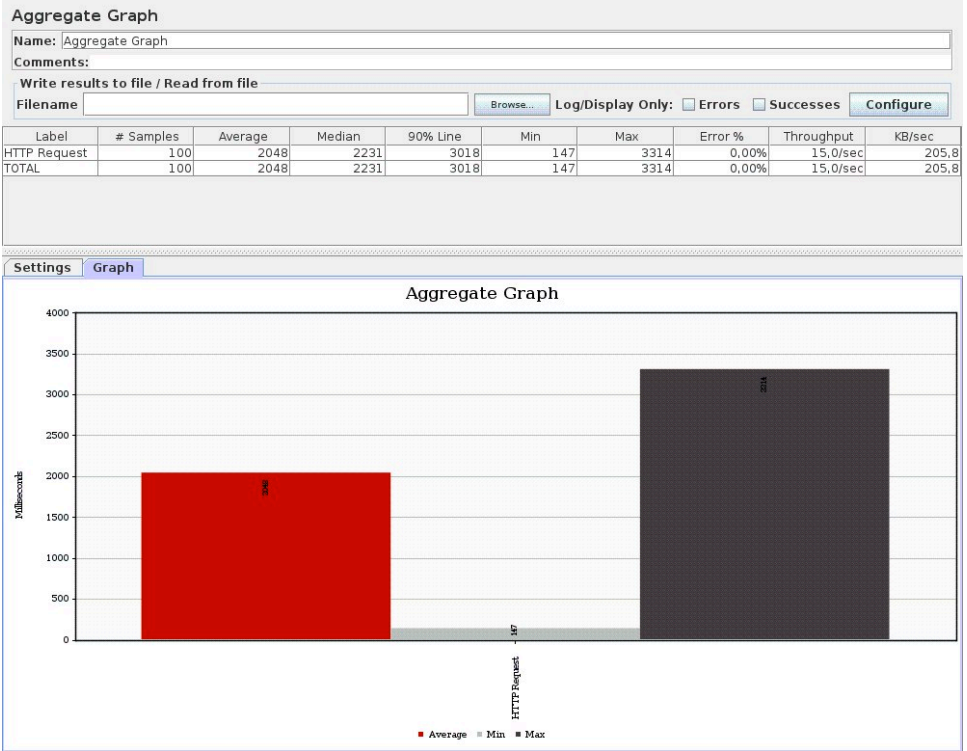

Content management system: WordPress.

Test perform software: Apache JMeter.

Users – 100, time 1 second.

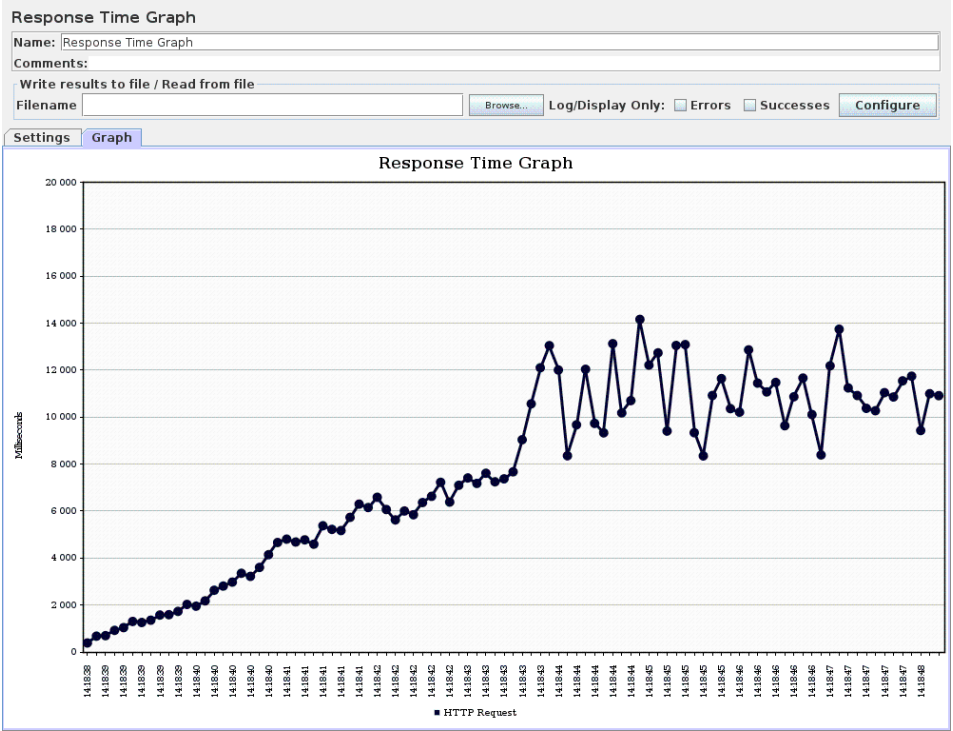

Graphic №1 response time.

Graphic №2. Red – average response time, gray –minimal response time, black – maximum response time.

Users – 500, time 1 second.

Graphic №1 response time.

**Aggregate Graph**

### Conclusion:

Test results show problems with responding to users after simultaneous requests of 3500 with in 10 seconds time period. 27% errors with responding to users.

Recommendation:  
Upgrade server performens.
